Student Satisfaction Survey on Teaching Learning Process

1. How much of the syllabus was covered in the class?

 Copy

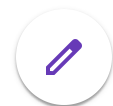

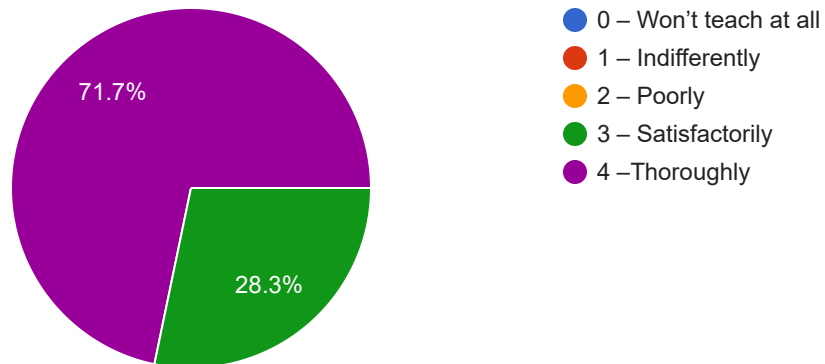

46 responses

2. How well did the teachers prepare for the classes?

 Copy

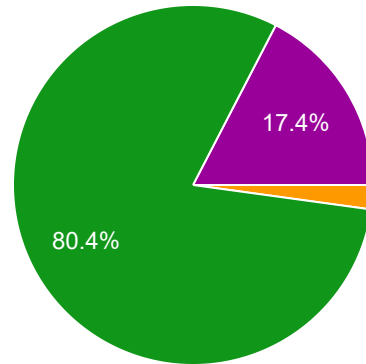

46 responses

3. How well were the teachers able to communicate?

 Copy

46 responses

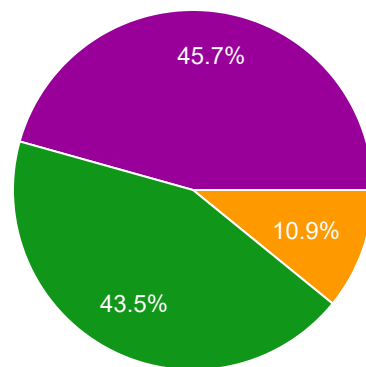

- 0- Very poor communication
- 1- Generally ineffective
- 2 - Just satisfactorily
- 4 - Always effective
- 3 - Sometimes effective

4. The teacher's approach to teaching can best be described as

 Copy

46 responses

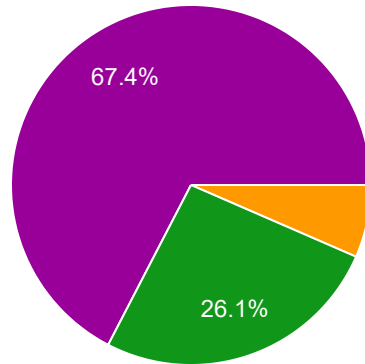

- 0- Poor
- 1 - Fair
- 2 - Good
- 3 - Very good
- 4- Excellent

5. Fairness of the internal evaluation process by the teachers.

 Copy

46 responses

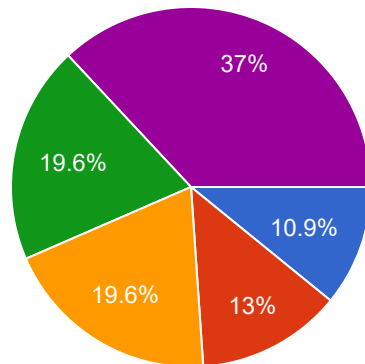

- 0 - Unfair
- 1 - Usually unfair
- 2 - Sometimes unfair
- 3 - Usually fair
- 4 - Always fair

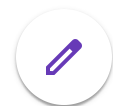

6. Was your performance in assignments discussed with you?

 Copy

46 responses

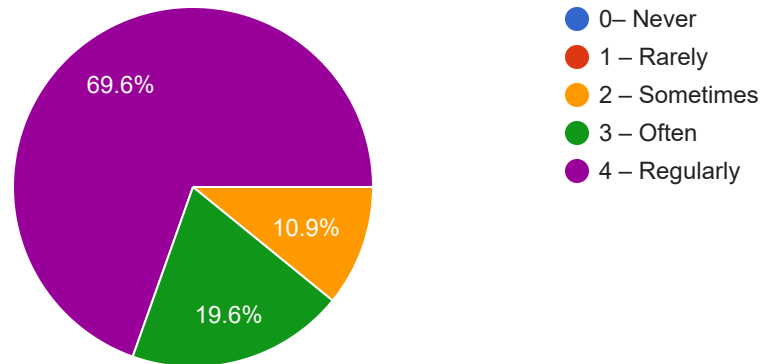

- 0 - Never
- 1 - Rarely
- 2 - Occasionally/Sometimes
- 3 - Usually
- 4 - Every time

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students

 Copy

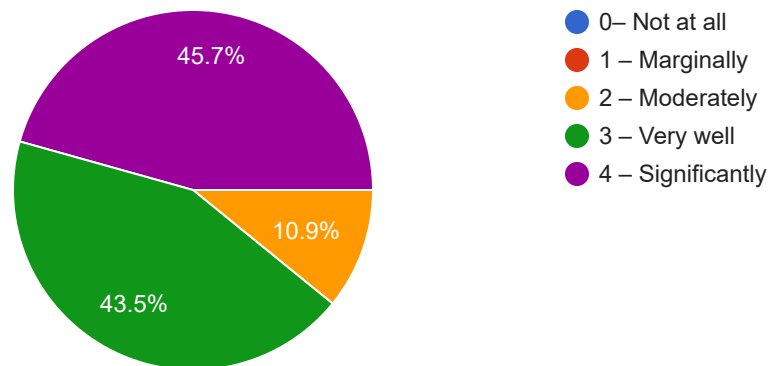

46 responses

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth

 Copy

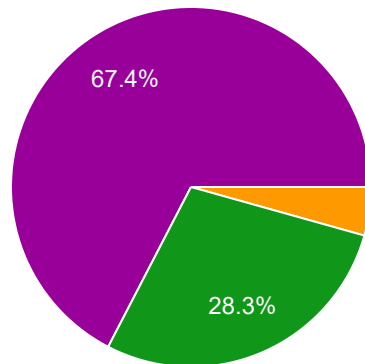

46 responses

9. The institution provides multiple opportunities to learn and grow

 Copy

46 responses

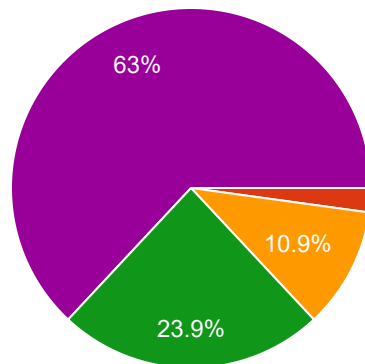

- 0- Strongly disagree
- 1- Disagree
- 2- Neutral
- 3- Agree
- 4- Strongly agree

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes

 Copy

46 responses

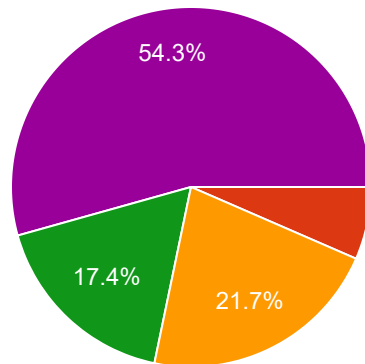

- 0- Never
- 1- Rarely
- 2- Occasionally/Sometimes
- 3- Usually
- 4- Every time

11. Your mentor does a necessary follow-up with an assigned task to you

 Copy

46 responses

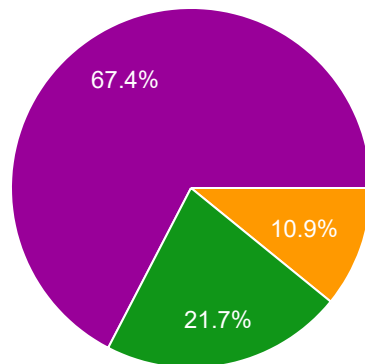

- 0 – I don't have a mentor
- 1 – Rarely
- 2 – Occasionally/Sometimes
- 3 – Usually
- 4 – Every time

12. The teachers illustrate the concepts through examples and applications.

 Copy

46 responses

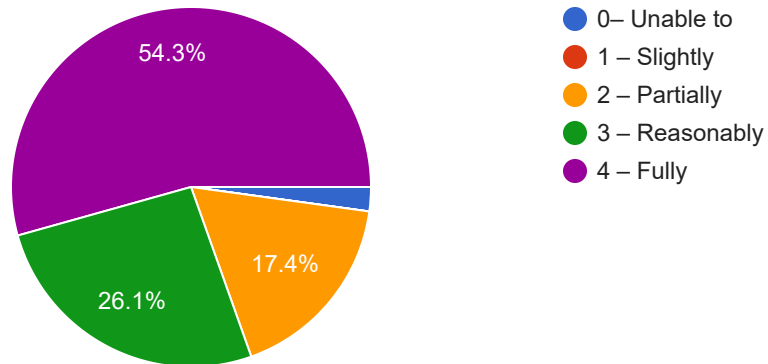

- 0 – Never
- 1 – Rarely
- 2 – Occasionally/Sometimes
- 3 – Usually
- 4 – Every time

13. The teachers identify your strengths and encourage you with providing right level of challenges.

 Copy

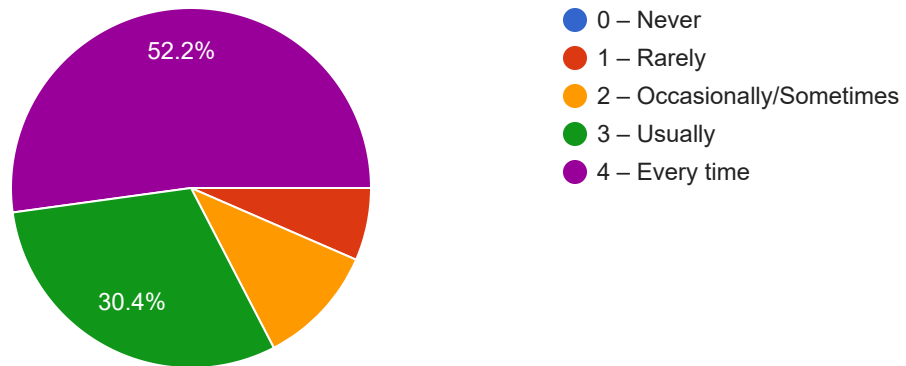

46 responses

14. Teachers are able to identify your weaknesses and help you to overcome them

 Copy

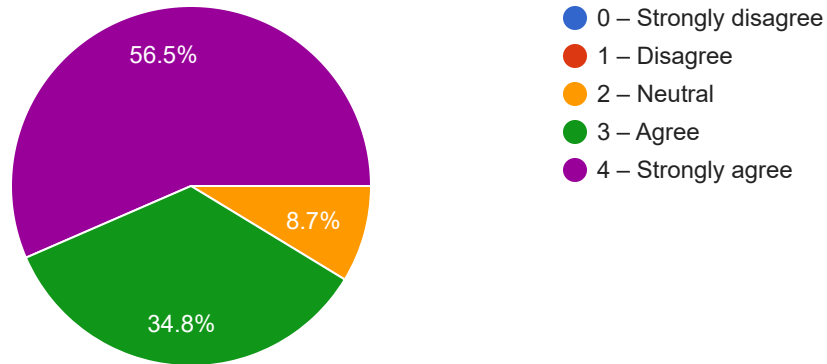

46 responses

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

 Copy

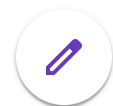

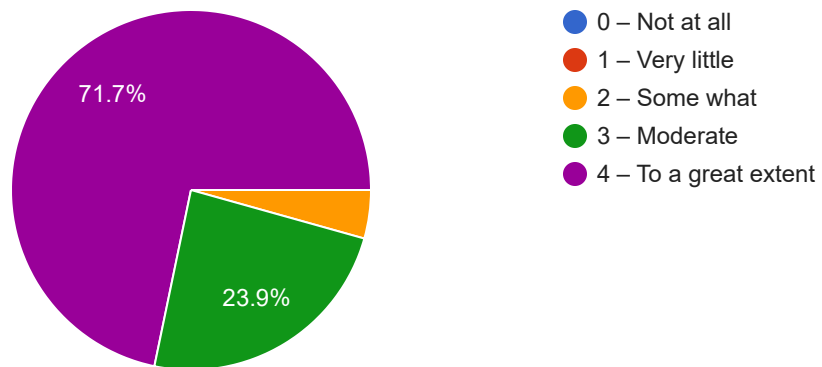

46 responses

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences

 Copy

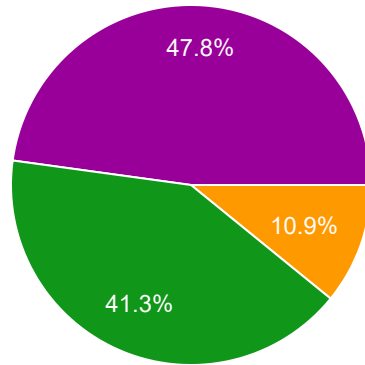

46 responses

17. Teachers encourage you to participate in extracurricular activities.

 Copy

46 responses

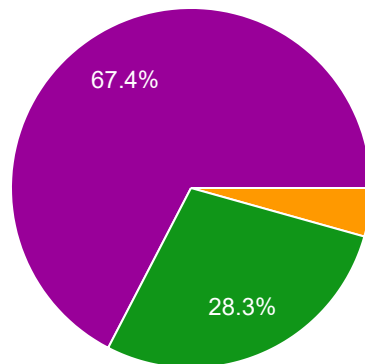

- 0 - Strongly disagree
- 1 - Disagree
- 2 - Neutral
- 3 - Agree
- 4 - Strongly agree

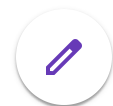

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work

 Copy

46 responses

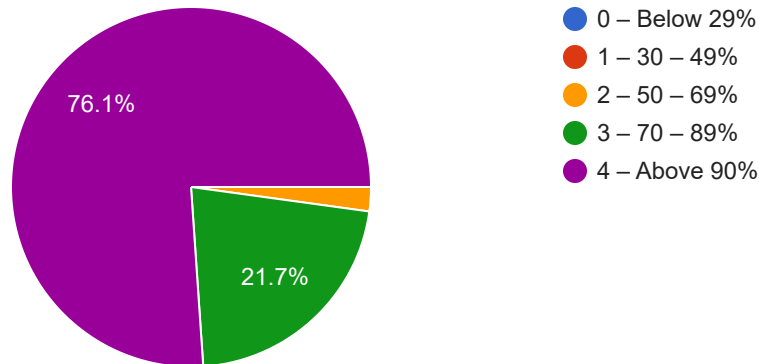

- 0 - Not at all
- 1 - Very little
- 2 - Some what
- 3 - Moderate
- 4 - To a great extent

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

 Copy

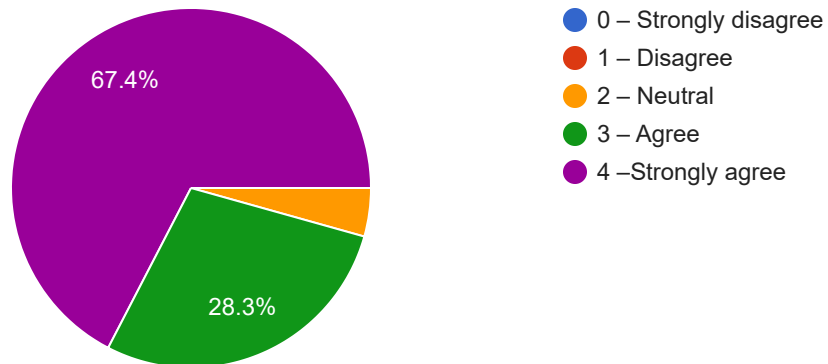

46 responses

20. The overall quality of teaching-learning process in your institute is very good.

 Copy

46 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution

46 responses

NA

The compilation of notes is good but it can better.

The language in notes should be a little difficult to understand so it can be explained in a simpler way so that everyone can understand it

More pedagogy 2 lessons should be delivered by students, rest everything was well planned and help us to train ourselves with a lot of skills during our course

I observed that there is so much discipline. Different teaching methods and activities made me confident and inculcated different skills in me.

Observations:

1. Teachers are always helping and kind.
2. Staff plays an important role and the office staff is so helpful in our institute.
3. Proper facilities and guidance provided by the institution.

No comments

Sometimes don't be biased with the students, be fair to each and every student. Don't make pressure by comparing other students.

Internship period could have been more to get an exposure of the school life.

More field trips/picnics could be planned to make the students enjoy.

1. The experience was very nice
2. It would be great if the notes are sent properly and in an orderly manner
3. Compile the notes in a spiral binding book

Use more other teaching methods

N.A

Don't try to make every day packed as students don't get time to study

How to use smart board should be taught individually.

1. Improvement in the infrastructure of Washroom problems.
2. Improvement in attitudes of some Office Staff.

None

Avoid group assignments especially which has grades.
More interactions between teacher and students
Avoid a heavy burden in sem 4 by giving many assignments.

1) I would thank my college to rigorously kept polishing my skills through various hands on activities like drama classes, community work, extension work, and green club activities. 2) This college has inspired me to to adapt different teaching methods as they had incorporated and guided some amazing teaching methods during internship program. 3) This course was full of fun, learning and truly holistic development for a student-teacher because each activity happened in college has imbibe some great learnings in ourselves.

1. New educators should be observed during their teaching process in the classroom as well as when they give guidance on assignments and evaluation of answer papers.

New teachers should improve their approach of teaching. Teachers should pay more attention on students weaknesses. Also too many activities create stress. This should be avoided. Teachers should do proper planning of tasks, assignments and activities so that it does not create burden on students. Also internship planning requires a lot of improvement.

1. The courses should be aligned with the internships, as some of the modules which were helpful for the internship (for instance; blooms taxonomy) happened after the major part of the internships. If it could have happened before maybe in Semester II, it would have helped in writing LOs.

2. Apart from this, I had the best learning experience in KKCE. All the teachers helped me a lot in becoming my best self and enhance my skills as a teacher.

As there are many group activities happening but regarding grouping make group and give to the students so everytime you get to work with different peers.

N/A

Scheduling of co- curricular programs with the time-table

Actually everything here is more than good and which is appropriate according to a 2 year B.ed Curriculum which is full of learning with fun and different experiences .

However some suggestions would be :-

- 1) Some more co-curricular activities related to music and dance can be integrated
- 2) More group presentations can be organised for learning different concepts
- 3) More visits to some NGO's can be done to engage more with the community

The teachers always use experiential methods which helps to engage us in the activity thoroughly. They always use examples and applications which helps us understand the concept more.

Everything was good

1. Our teachers tried to reach most of the students and ask their doubts.
2. They have a great content knowledge.
3. Our infrastructure is really good.

1. Feedback for the assignments.
2. Open Day for the students progress in both academics and overall personality.
3. Institution gives various opportunities and explore to different techniques which helps in the development in teaching profession.

Sometimes content was too much and teaching was too fast.

1. If 2 teachers are teaching a particular paper there is coordination among them.
2. If more than 2 teachers are teaching a paper, they should try to complete the syllabus in sequence.
3. Teachers provide learning material well in advance which helps us.

No suggestions to improve the overall teaching-learning experience in my institution.

Seminars and workshops planned were with resource persons who shared their practical experiences and insights.

Active involvement of faculties in providing quality educational experience is applaudable.

An academic schedule that is planned in such a way that it reduces fatigue and the teaching learning activities are optimally benefit the students.

1. Reduce the percent of lecture method based instructions(during lengthy periods) and keep 5min break/gaps between lengthy lecture sessions so as to avoid fatigue. Students can then effectively participate in the teaching-learning process.
2. Give feedbacks on the assignments as well. Otherwise it just becomes a compulsory marks based task for students and they don't even get to know how they have performed and they should've performed.
3. The activities conducted by teachers for teaching few topics were very creative and interesting making T-L process easy and engaging. They should be continued and incorporated in other course sessions as well.

1. I wish the faculty members would communicate effectively with the students.
2. Sometimes, it felt like the teachers were biased in internal evaluation of tests, I hope they would be objective in it.
3. Mentor teachers never pointed out our strengths and weaknesses, hope they would help us to identify them so that we can become better.

1. Be more student centric
2. Carefully observe the weaknesses of students and help them to overcome it.

1)There were one or two papers which were taught by many teachers. It confused me to what was done and what was left and overall comprehension of those papers was also less compared to others. Therefore, I would suggest to restrict the number of teachers teaching one paper.

1. Teaching is very good from teachers side.

Overall it was good only suggestion from my side will be I don't like when teachers usually give whole unite for presentation from students and explain it briefly, this

way something we are not understanding the concept that well.

- 1) Students could be treated more fairly and equally.
- 2) Flexibility in choosing assignments.
- 3) Incorporate more activity-based learning.

The teachers were unbiased and fair to all of us.
They created a great learning environment.
They teachers clarified our doubts systematically.

Just that language lab could have been effective if guided by a professor.

Everything is good Practice of using smart board should be given individually under guidance of teachers.. Students weak in ICT should be given extra practice under teachers guidance.
